Preface

New software products for automatic translation and for supporting translation work are appearing almost every week; there is constant updating for new versions of operating systems, and more and more companies are involved in the field. It is inevitable that in this fast moving field no listing of commercial products can ever be complete or absolutely up to date. However, this Compendium is intended to provide the most comprehensive and detailed listing of all known systems of machine translation and computer-based translation support tools that are currently available for purchase from stores, by mail or via the Internet.[1] It should be noted that it does not include any systems still under development (or reported to be close to market), nor does it include any systems or translation tools of limited availability, such as systems developed for particular clients by software or other companies. Additions since the previous edition are highlighted in blue.

In order to ensure comprehensiveness and accuracy in future editions, all users of this publication are encouraged to inform the chief compiler, John Hutchins (WJHutchins@compuserve.com), with all relevant details, about:

a) any systems currently on sale which are not listed
b) any systems listed that are now no longer on sale
c) any specifications that are inaccurate (languages, system requirements, features, prices)
d) any additional information about any listed systems
e) any company information that is inaccurate or absent (mail addresses, telephone/fax, email addresses, websites, agents, distributors, products)

It should be stressed that the sources of information must be reliable and authoritative, and that the information must be current. If possible please send relevant vendors' documentation to the address given on the verso of the title page.

Disclaimer: Inclusion of any product in the Compendium does not imply recommendation or endorsement by the compilers, by the European Association for Machine Translation or by the International Association for Machine Translation. In particular it should be noted that system categories are not to be interpreted as indicators of translation or performance quality.

Note: most product and company names are trademarked and/or registered names, e.g.: Internet Explorer™, Windows®, Microsoft®; WordPerfect®, Corel®; Netscape Navigator™, Mosaic™.

[1] Earlier editions of the Compendium, which list older systems and older versions of current systems, are available as PDF files from: http://ourworld.compuserve.com/homepages/WJHutchins/compendium.htm

Arrangement of entries

The Compendium comprises a list of Products, a list of Companies, indexes of languages and an index of translation support tools.

Products are listed alphabetically under their retailed names, and include the following details (when known):

1) *Product name* and (latest) *version* number. Any doubtful elements are enclosed in brackets. (Cross-references from other, older or alternative names are provided.)
2) *Company*: producer, developer or vendor of the system. For details of the company see the separate list of Companies.
3) *Category*: the type of system. A standardized set of categories has been applied as follows (with brief definitions):

Automatic translation systems with various subcategories

MT system: software for automatic translation, where input units are full sentences of one natural language and the output units are corresponding full sentences of another language.

MT system (home use): an automatic translation system designed by the producer for personal use by the general public, i.e. by persons not normally with any experience or training in translation. (Caution: some of these systems are little more than dictionaries.)

MT system (for Internet/Web): system developed specifically for translating electronic documents on the Internet such as electronic mail, webpages, chat discussions, etc.

MT system (professional use): system designed for use by professional translators, usually working independently or for translation agencies

MT system (client/server): system designed for company intranets to support a team of translators (often professionally trained)

MT system (for Websites): system designed for company websites to provide online translation of webpages.

Translation support tools of the following types:

Electronic dictionary: bilingual or multilingual database of lexical entries (words or phrases) searchable individually or in combination, either for consultation or for insertion into human-produced translations. (A dictionary might also be used to produce 'word-for-word' renditions, i.e. sequences of individually translated words in the syntactic order of the original texts.)

Localization support tool: system for the translation, terminological control, and publication of multilingual computer software documentation and programs

Translation memory system: software (or component of system) for the creation, maintenance and searching of bilingual databases of previously translated texts

Alignment tool: software for the creation of bilingual text databases where sentences (or phrases) of source texts are linked to corresponding text segments of a target language.

Terminology management system: software for the creation, maintenance and searching of multilingual databases of terminology compiled for local (company or personal) use.

Pre-editing tool: software for the preparation of input texts, often including means for the control of input language, i.e. the reduction of ambiguities and the simplification of structures in order to facilitate automatic translation.

Translator workstation: integrated system for the use of professional translators, which combines (normally) multilingual word-processing, terminology management, translation memory, and (optional) automatic translation.

Translation services

MT portal: service on Internet providing access to a number of MT services and/or to information about MT systems.

MT service: translation service via Internet (or mobile telephone), using MT systems. Many are free; some charge according to length and/or subject of texts and/or for human post-editing.

4) *Languages*: listed as language pairs, i.e. A→B means a system for translating from language A into language B, and A↔B means a bi-directional system for translating both from A into B and from B into A. In the case of electronic dictionaries and translation support tools covering a number of languages in any combination, the languages are simply listed alphabetically: A, B, C,... etc.
5) *Subject coverage*: included if producer specifies a limitation to, or optimal performance with, particular subject fields. The absence of any indication normally implies that the producer intends the system to be general-purpose.
6) *Requirements*: covering computer types (e.g. PC or Macintosh, and minimum CPU), compatible operating system(s) (e.g. Windows98, WindowsNT, WindowsXP), minimum memory (RAM) and hard disk (HD) space, other hardware required (e.g. CD-Rom drive)
7) *Dictionaries*: size of the main (or basic) dictionary; any subject dictionaries available (number, coverage, size); user dictionary (and any limitations)
8) *Input*: file formats and software (e.g. word-processors) stated by producers as compatible with or acceptable as input to the system
9) *Translation speed*: as claimed by the producer
10) *Features:* any distinctive features not evident from the other details given
11) *Notes*: for previous names, cross-references to other products (in italic), etc.
12) *Distributor*: where there is uncertainty about the manufacturer (name, address, etc.), the name of a distributor is given. Note that in some cases the named distributor is the source of information about the product. Details for distributors are given in the alphabetical list of companies.
13) *Access*: address of website for using a service on-line or for downloading software. (Web addresses for companies are given in the Company list.)
14) *Price*: current retail price (if known) for one language pair or one bi-directional system; and prices of any separately sold dictionaries. Prices are given, whenever possible and if available, in dollars ($), yen (¥), or Euro (€), otherwise in local currencies as appropriate.
15) *Source*: Location on Internet of further information about products

Companies are listed alphabetically. The list includes producers, vendors, distributors, and providers of MT services. For each company entry, the details include mail address (headquarters whenever possible), main telephone and fax numbers, an email address for information or sales, and the home webpage. In some cases, details of major branch offices are also given.

The index of Language pairs **(MT systems)** refers to names in the main (Products) sequence. Bi-directional pairs (appearing in the main list as A↔B) are included twice in the index, as A→B and as B→A. There is also an index of Languages in electronic dictionaries and multiple source and target systems, i.e. offering translation from any one language to any other.

The index of Translation support tools refers to names of systems in the Products sequence under the categories listed in (3) above.

Products

Across Version 2.5
Company: Ahead Software AG
Category: Translator workstation, translation memory, terminology management
Languages: all supported by the operating system
Input: Word, RTF, TXT, PowerPoint, Excel, HTML, XML, Windows Resource
Price: Personal Edition: €399.00, Team Edition (server licence plus 5 client licences): €1,290.00; Network Edition (server licence with MS SQL MSDE plus 8 client licences): €3,990.00
Source: http://www.across.net/en/index.html

Active Translator see *FB-Active Translator*

Ajeeb
Company: Sakhr Software
Category: MT service (Internet)
Languages: Arabic↔English
Input: texts, webpages, news texts on Web
Access: http://english.ajeeb.com, or http://tarjim.ajeeb.com/ajeeb
Price: free (after registration)

Alamax Translator Version 2.1
Company: not known
Category: MT system
Languages: German↔Polish
Requirements: Pentium, Windows 95/98/ME/NT 4.0/2000/XP, 32MB RAM,100 MB HD space
Dictionaries: 480,000 entries
Input: text, web pages
Distributor: http://www.abitz.com/uebersetz/deutschpolnisch.php3
Price: €199.00

Al-Misbar
Company: ATA Software Technology Ltd.
Category: MT service (Internet)
Languages: English→Arabic
Input: text, webpages
Price: free
Source: http://www.almisbar.com/salam_trans.html

Al Mutarjim Al Arabey. Version: 3.0
Company: ATA Software Technology Ltd
Category: MT system (professional)
Languages: Arabic↔English
Requirements: Pentium 166MHz; Arabic-enabled Windows 98/2000/NT/ME/XP; 32MB (64MB recom.) RAM, 50MB HD space; CD-Rom drive; Internet Explorer 4.0 or later
Dictionaries: basic (2 million entries), 46 special (medicine, veterinary, biology, physics, mathematics, chemistry, engineering, geology); user dictionary

Features: spoken English output, OCR (for English)
Price: €250
Source: http://www.atasoft.com/almutarjim/main.htm; http://www.englishtoarabic.com/

Al-Nakil see *An-Nakel El-Arabi*

alphaWorks see *WebSphere*

Al-Wafi Translator Version: 4.0
Company: ATA Software Technology Ltd.
Category: MT system (home use)
Languages: Arabic↔English
Requirements: Pentium 166MHz; Arabic Windows98/2000/ME/NT/XP; 32MB RAM, 30MB HD space; CD-Rom drive; Internet Explorer 4.0 or later
Dictionaries: basic (1,500,000 words); user dictionary
Features: optional spoken English output
Price: €50
Source: http://www.atasoft.com/newalwafi/main.htm; http://www.englishtoarabic.com/

Al-Wafi Quick Dictionary Version: 2.0
Company: ATA Software Technology Ltd.
Category: Electronic dictionary
Languages: Arabic↔English
Requirements: Pentium 166MHz; Windows98/2000/ME/NT/XP; 32MB RAM, 30MB HD space; CD-Rom drive; Internet Explorer 4.0 or later
Dictionaries: 500,000 words
Input: Word
Feature: spoken English output
Price: €25
Source: http://www.atasoft.com/quickalwafi/main.htm; http://www.englishtoarabic.com/

Amaro's Lab
Category: MT service
Languages: English↔Papiamentu
Input: text
Access: http://www.donamaro.nl/papiamentu
Price: free

Ambassador see *GlobalSight Ambassador*

Amikai APIs
Company: Amikai Inc.
Category: MT system (client-server)
Languages: Chinese↔English, English↔French, English↔German, English↔Italian, English↔Japanese, English↔Portuguese, English↔Spanish, French↔German, French↔Italian, German↔Italian, Italian↔Spanish, Japanese↔Korean
Note: allows software developers to incorporate translation directly into network applications
Price: contact company
Source: http://www.amikai.com/products/apis/

Amikai Enterprise
Company: Amikai Inc.
Category: MT system (Internet)
Languages: Chinese↔Japanese, English↔French, English↔German, English↔Japanese, English↔Portuguese, English↔Spanish, French↔Italian, Japanese↔Korean
Requirements: Windows98/ME/NT4.0/2000/XP (English or Japanese); 64MB RAM, 20MB HD space; Internet Explorer 5.0, Netscape 6.0
Input: Microsoft Office97/2000/XP; Adobe Acrobat
Price: licences from ¥15,000 per month
Source: http://www.amikai.com/products/enterprise/

An-Nakel El-Arabi
Company: Cimos
Category: MT system
Languages: Arabic↔English, Arabic↔French
Subject coverage: trade, commerce, banking, law, computers, petroleum and gas production
Requirements: PC 486, Pentium; Windows95/98/NT/2000; 8MB RAM (16MB recommended), 150MB HD space
Dictionaries: general words (150,000 words and phrases), idioms, specialist words; user dictionary, subject dictionaries (computer, banking, business, gas and petroleum)
Translation speed: 60,000 words/hour
Features: includes translation memory system
Price: $490 (one direction), $990 (bi-directional)
Source: http://www.cimos.com/

ArabTrans Version: 2.0
Company: ArabNet Technology
Category: MT system (home use)
Languages: English→Arabic
Dictionaries: 260,000 entries
Requirements: Windows3.1/95/98/NT4, with Arab support
Input: via keyboard or disk
Price: £175
Source: http://www.gy.com/www/ww1/ww2/atabuot.htm

Araya Suite
Company: Heartsome
Category: Localization support tool, Translation memory system
Input: XML
Features: three editions: Enterprise, Professional, Standard
Price: contact company
Source: http://www.heartsome.net

Araya Terminology Manager
Company: Heartsome
Category: Terminology management system
Price: $398 (10-user licence)
Source: http://www.heartsome.net

ASTRANSAC for Internet see *HONYAKU Internet*

ASTRANSAC for Windows see *HONYAKU Professional*

ATLAS Version: 10.0
Company: Fujitsu Ltd.
Category: MT system (client-server)
Languages: English↔Japanese
Requirements: PC; Japanese Windows95/98/Me/2000/XP/NT 4.0; 32MB RAM (64MB for XP), 190MB HD space; Internet Explorer 5.01 to 6.0
Dictionaries: basic (910,000 words English→Japanese, 890,000 Japanese→English); subject (25 domains: law, medicine, business, information processing, etc. totalling 1,250,000 words)
Input: Word, Excel, Acrobat, RTF, PowerPoint, webpages, Clipboard, email
Features: Web translation, translation editor, translation memory, translation environment, server translation (in connection with *eAccela BizLingo*)
Note: available only on Japanese market
Price: first processor ¥ 3.5 million; additional processor ¥2.8 million
Source: http://software.fujitsu.com/en/atlas/V10/lineup.html

ATLAS HONYAKU Personal Version: 2004
Company: Fujitsu Ltd.
Category: MT system (home use)
Languages: English↔Japanese
Requirements: PC; Japanese Windows95/98/2000/Me/NT4.0; 32MB RAM, 270MB HD space (519MB for additional dictionaries)
Dictionary: 1,240,000 entries; 8 special dictionaries
Price: ¥8,800 (upgrade: ¥4,800); with Business dictionary pack: ¥29,800 (upgrade: ¥21,000)
Source: http://software.fujitsu.com/jp/atlas/p2004/top.html

ATLAS Translation Server 2002 see *eAccela BizLingo*

A-Trans KJ Version: 1
Company: APRO Technology
Category: MT system (home use)
Languages: Korean→Japanese
Requirements: PC Pentium 500; Japanese Windows2000/XP; 16MB RAM, 20MB HD space
Dictionary: 300,000 words
Price: ¥5,985
Source: http://www.aprotechnology.com/jp/products/ATransKJ/atranskj.html

ATS: Automatic Translation Server
Company: Automatictrans S.L.
Category: MT service (Internet)
Languages: Catalan↔Spanish, Portuguese↔Spanish
Input: ASCII, ANSI, text, XML, HTML, Word (DOC), RTF
Price: free (up to 50 words), from €0.0120 per word (postedited from €0.0361 per word)
Source: http://www.automatictrans.es

Automatic PlusTranslation see *Click2Translate*

Babelfish
Company: Altavista
Category: MT service (for Internet/Web)
Languages: Chinese↔English, English↔French, English↔German, English↔Italian, English↔Japanese, English↔Korean, English↔Portuguese, English↔Spanish, French↔German, Russian→English
Input: webpages, text (limited to 150 words)
Note: uses *Systran* system.
Access: http://babelfish.altavista.com
Price: free

Babylon-Pro Version: **5.0**
Company: Babylon Ltd.
Category: Electronic dictionary (with Internet service)
Languages: English→Chinese, Dutch↔English, English↔French, English↔German, English↔Hebrew, English↔Italian, English→Japanese, English↔Korean, English↔Portuguese, English↔Russian, English↔Spanish, English→Swedish
Requirements: PC 486 or higher; Windows 95/98/2000/NT/ME/XP; 64MB RAM (128MB recommended); Internet Explorer 4.0 or later, Netscape 4 or later
Note: provides access to dictionaries and glossaries on-line; also available as 'Corporate Edition'; spoken English output
Price: $49.50, free trial, licences from $24.50 (one year), downloadable (from www.babylon.com)
Source: http://www.babylon.com

Bultra
Company: ProLangs Ltd.
Category: MT system, MT service (Internet)
Languages: English→Bulgarian
Dictionaries: 807,000 (general); specialist, technical dictionaries, user dictionaries
Note: PC versions for Personal, Business, and Professional, not currently on sale
Price: from 2475 leva (LAN version); 0.07 leva per 1KB text (online)
Source: http://www.bultra.com/index_e.html

Business English
Company: Linguatec Sprachtechnologien
Category: Electronic dictionary
Languages: English↔German
Dictionaries: 100,000 entries, plus 35,000 idioms
Database: 25,000 sentences
Subject coverage: business
Features: voice output; can be integrate with Word or Outlook95/97
Note: either standalone or in conjunction with *PT2001 Office Plus*
Price: €49
Source: http://www.linguatec.de/products/be/

Business English Online
Company: Linguatec Sprachtechnologien
Category: MT service (Internet)
Languages: English↔German

Dictionaries: 100,000 entries, plus 35,000 idioms
Database: 25,000 sentences
Subject coverage: business
Access: http://www.linguatec.net/online/beo/index.shtml
Price: free

CATALYST Version: **5.0**
Company: Alchemy Software Development Ltd.
Category: Localization support tool; translation memory
Languages: all
Requirements: Pentium; Windows95/98/2000/NT 4.0/XP,Win32,RC,RESX,NET/CE, Symbion, EPOC, Java; 64MB RAM
Features: Integrated localization environment, range of experts for speed and accuracy, binary localization, translation memory
Input: Excel, XML
Note: also available glossary conversion from *TermStar*
Price: $699 (translator), $3,999 (localizer), $6,499 (developer/pro)
Source: http://www.alchemysoftware.ie/products/catalyst.html

Çevirmen
Company: ITC (Innovative Technology Center) Inc.
Category: MT system
Languages: English→Turkish
Dictionary: 45,000 words; user dictionary (35,000 words)
Requirements: PC Windows3.1/95/NT, 16MB RAM (32MB recommended), 30MB HD space; Macintosh System 7.1, 16MB RAM (32MB rec.),10MB HD space
Features: interactive translation
Price: contact company
Source: http://www.itc.com.tr/engl/cev.html

ChatSphere
Company: AppTek Inc.
Category: MT system (for corporate email)
Languages: see *TranSphere*
Note: for translation of emails within companies
Price: contact company
Source: http://www.apptek.com/products/pdf/chat.pdf

CiyaTran
Company: Ciyasoft Corporation
Category: MT system
Languages: English→Arabic, English→Dari, English→Farsi
Dictionaries: 1.5 million entries; 85 technical dictionaries
Requirements: 120MB RAM
Translation speed: 600 pages/min.
Price: unknown
Source: http://www.ciyasoft.com/machintranslation.htm

Click2Translate
Company: SDL International

Category: MT service (Internet)
Languages: Catalan↔English, Dutch↔English, English↔French, English↔German, English↔Italian, English↔Portuguese, English↔Spanish, Swedish→English
Input: text, RTF, HTML
Features: provides professional post-editing
Note: complements *FreeTranslation*
Access: http://www.click2translate.com/
Price: estimates provided

Clickq Translation Server
Company: ClickQ Co.Ltd.
Category: MT service
Languages: English↔Korean
Price: contact company
Access: http://www.clickq.com/

Comprendium Translator
Company: Comprendium Informatik AG
Category: MT system (client-server)
Languages: Catalan↔English, Catalan↔Spanish, English↔French, English↔German, English→Italian, English↔Russian, English↔Spanish, French↔German, French↔Spanish, German↔Russian, German↔Spanish
Note: includes translation memory system
Price: contact company
Source: http://www.comprendium.biz

Context-Online
Company: Smart Link Corporation
Category: Electronic dictionary (Internet)
Languages: English↔French, English↔German, English↔Italian, English↔Portuguese, English↔Russian, English↔Serbian, English↔Spanish, French↔German, French↔Italian
Access: http://paralink.com/context/

Convey Localization Suite
Company: Convey Software
Category: Localization support tool
Languages: any
Features: includes content management, project management, and localization toolkit
Price: contact company
Source: http://www.conveysoftware.com/

Crossroad Version 3.0
Company: NEC Corporation
Category: MT system (home use, for Web)
Languages: English↔Japanese
Requirements: PC Pentium 90 MHz or higher; JapaneseWindows95/98/NT 4.0; 32MB RAM, 180MB HD space (more for speech modules)
Dictionaries: 120,000 words (each direction); user dictionary; technical dictionaries (31 fields, totalling 600,000 entries), 20,000 sample English sentences

Input: Word95/97/98, PowerPoint97, RTF, HTML, Write, HLP, Excel97, and webpages, email
Feature: includes dictionary look-up; Japanese voice input and English voice output
Price: ¥ 12,000; technical dictionaries from ¥10,000 each

Crossroad for Enterprise Version: 2
Company: NEC Corporation
Category: MT system (client-server, Web)
Languages: Chinese↔Japanese, English↔Japanese, Japanese↔Korean
Requirements (client): PC Japanese Windows; Internet Explorer 5.01 SP2 or later
Requirements (server1): PC Pentium 2GHz or later; Miracle Linux or Red Hat Linux; 1GB RAM (min.), 70GB (min.) HD space
Requirements (server2): PC Pentium 2GHz or later; Windows 2000 Server or Professional; 1GB RAM (min.), 70GB (min.) HD space; Microsoft Japanese Office XP; Adobe Acrobat
Dictionaries: 1,000,000 words (each direction); subject dictionaries (35 fields: science, chemistry, medicine, law, business, etc.), user/group dictionary; 400,000 sample English sentences
Input: Word, Excel, PowerPoint; Acrobat PDF; HTML; txt
Features: Intranet use by web browser, translation memory, similar sentence retrieval
Notes; For Japanese market only
Price: ¥ 5,000,000
Source: http://www.sw.nec.co.jp/soft/crossroad-enterprise/index.html

Déjà Vu Version: X
Company: Atril Software
Category: Translator workstation; Translation memory system
Languages: any
Requirements: Pentium II; Windows95/98/NT4/2000; 64MB RAM
Input: Word 2.0 and 6.0/7.0, PowerPoint, ASCII, RTF, SGML, HTML, XML, RC, PageMaker, Interleaf, FrameMaker, JavaScript, QuarkXPress, VBScript, Adobe InDesign, Trados BIF, EBU STL, GNU GetText
Feature: includes 'autoassemble' function for building rudimentary sentence translation, supports TMX, integrates with *CATALYST,* and *Trados TM*
Note: various editions: Editor, Standard, Professional, Workgroups
Price: € 490 (Standard), €990 (Professional), €2250 (first licence for Workgroup)
Source: http://www.atril.com

Delta Translator Version: 3.0
Company: Delta Translator
Category: MT system
Languages: Portuguese (Brazilian)↔Spanish
Requirementa: Pentium 100MHz or higher; Windows95/98/NT/Me/2000/XP; 32MB RAM, 60MB HD space, 4x CD-Rom; Internet Explorer 4.0 or later, Netscape Navigator 4.0 or later
Input: text, webpages,
Features: voice input/output
Price: $149.95
Source: http://www.deltatranslator.com/index.html

Domino Global Workbench Version: 5.0.7
Company: Lotus Development Corporation
Category: Localization support tool (for Web)
Requirements: PC Pentium; Windows95/98/2000/NT 4.0; 16MB RAM, 25MB HD space

Features: fully integrated with Lotus Notes and Lotus Domino applications; includes translation memory
Access: http://www-306.ibm.com/software/globalization/software/lotus.jsp
Price: contact company

Dr.Eye 2002 Version: 4.61
Company: Inventec Corporation
Category: MT system (home use)
Languages: Chinese↔English, English↔Japanese
Requirements: PC Pentium; Chinese Windows95/98/ME/2000/Me; 16MB RAM, 170MB HD space, CD-Rom drive
Dictionary: 400,000 characters
Input: text, webpages
Note: traditional Chinese; also available for PocketPC
Price: $99
Source: http://www.dreye.com.cn

Dr.Mouse Version: 6
Company: Justsystem Corporation
Category: Electronic dictionary
Languages: English↔Japanese
Requirements: Windows2000/Me/XP/NT 4.0; Internet Explorer 3.0/6.3, Netscape Communicator 4.01/4.7
Dictionary: 90,000 entries
Input: Word97/2000/2002
Price: ¥6,800
Source: http://www.justsystem.co.jp/drmouse

Druz'ya Goo-ru
Company: Project MT Ltd.
Category: MT system (home)
Languages: English↔Russian, German↔Russian
Requirements: PC Pentium 166 or higher; Windows98/Me/2000/XP/NT 4.0 SP5 or higher; 32MB RAM, 55MB HD space; Internet Explorer 5.x; CD-Rom drive
Dictionaries: special (e.g. cinema, cookery, music, travel)
Note: system for children
Price: $9
Source: http://goo-ru.promt.ru/

eAccela BizLingo Version: 2.0
Company: Fujitsu Ltd.
Category: MT system (client-server, Web)
Languages: English↔Japanese
Requirements (client): PC; Japanese Windows98/Me/2000/XP/NT 4.0; 32MB RAM (min.), 30MB HD space; Internet Explorer
Requirements (server): Windows 2000 Server; 768MB RAM, 1.3GB (min.)
Input: Word, Excel, Acrobat, PowerPoint
Features: access to translation from web browser, cross-lingual search, email translation
Note: successor of TransLinGO and ATLAS Translation Server; available only on Japanese market
Price: first processor ¥ 3,500,000, additional processor ¥2,800,000; technical support ¥58,000 per

month
