## Preface

New software products for automatic translation and for supporting translation work are appearing almost every week; there is constant updating for new versions of operating systems, and more and more companies are involved in the field. It is inevitable that in this fast moving field no listing of commercial products can ever be complete or absolutely up to date. However, this Compendium is intended to provide the most comprehensive and detailed listing of all known systems of machine translation and computer-based translation support tools that are currently available for purchase from stores, by mail or via the Internet.<sup>1</sup> It should be noted that it does not include any systems still under development (or reported to be close to market), nor does it include any systems or translation tools of limited availability, such as systems developed for particular clients by software or other companies. Additions since the previous edition are highlighted in **blue**.

In order to ensure comprehensiveness and accuracy in future editions, all users of this publication are encouraged to inform the chief compiler, John Hutchins (WJHutchins@compuserve.com), with all relevant details, about:

- a) any systems currently on sale which are not listed
- b) any systems listed that are now no longer on sale
- c) any specifications that are inaccurate (languages, system requirements, features, prices)
- d) any additional information about any listed systems
- e) any company information that is inaccurate or absent (mail addresses, telephone/fax, email addresses, websites, agents, distributors, products)

It should be stressed that the sources of information must be reliable and authoritative, and that the information must be current. If possible please send relevant vendors' documentation to the address given on the verso of the title page.

**Disclaimer:** Inclusion of any product in the Compendium does not imply recommendation or endorsement by the compilers, by the European Association for Machine Translation or by the International Association for Machine Translation. In particular it should be noted that system categories are not to be interpreted as indicators of translation or performance quality.

**Note:** most product and company names are trademarked and/or registered names, e.g.: Internet Explorer™, Windows®, Microsoft®; WordPerfect®, Corel®; Netscape Navigator™, Mosaic™.

---

<sup>1</sup> Earlier editions of the Compendium, which list older systems and older versions of current systems, are available as PDF files from: <http://ourworld.compuserve.com/homepages/WJHutchins/compendium.htm>

## Arrangement of entries

The Compendium comprises a list of Products, a list of Companies, indexes of languages and an index of translation support tools.

**Products** are listed alphabetically under their retailed names, and include the following details (when known):

- 1) *Product name* and (latest) *version* number. Any doubtful elements are enclosed in brackets. (Cross-references from other, older or alternative names are provided.)
- 2) *Company*: producer, developer or vendor of the system. For details of the company see the separate list of Companies.
- 3) *Category*: the type of system. A standardized set of categories has been applied as follows (with brief definitions):

*Automatic translation systems* with various subcategories

MT system: software for automatic translation, where input units are full sentences of one natural language and the output units are corresponding full sentences of another language.

MT system (home use): an automatic translation system designed by the producer for personal use by the general public, i.e. by persons not normally with any experience or training in translation. (Caution: some of these systems are little more than dictionaries.)

MT system (for Internet/Web): system developed specifically for translating electronic documents on the Internet such as electronic mail, webpages, chat discussions, etc.

MT system (professional use): system designed for use by professional translators, usually working independently or for translation agencies

MT system (enterprise): system designed for company intranets (e.g. client-server systems) to support a team of translators (often professionally trained)

MT system (for Websites): system designed for company websites to provide online translation of webpages.

MT system (spoken language): system designed to translate speech directly (i.e. not via a text-to-text system)

*Translation support tools* of the following types:

Electronic dictionary: bilingual or multilingual database of lexical entries (words or phrases) searchable individually or in combination, either for consultation or for insertion into human-produced translations. (A dictionary might also be used to produce ‘word-for-word’ renditions, i.e. sequences of individually translated words in the syntactic order of the original texts.)

Localization support tool: system for the translation, terminological control, and publication of multilingual computer software documentation and programs

Translation memory system: software (or component of system) for the creation, maintenance and searching of bilingual databases of previously translated texts

Alignment tool: software for the creation of bilingual text databases where sentences (or phrases) of source texts are linked to corresponding text segments of a target language.

Terminology management system: software for the creation, maintenance and searching of multilingual databases of terminology compiled for local (company or personal) use.

Pre-editing tool: software for the preparation of input texts, often including means for the control of input language, i.e. the reduction of ambiguities and the simplification of structures in order to facilitate automatic translation.

Translator workstation: integrated system for the use of professional translators, which

combines (normally) multilingual word-processing, terminology management, translation memory, and (optional) automatic translation.

*Translation services*

MT portal: service on Internet providing access to a number of MT services and/or to information about MT systems.

MT service: translation service via Internet (or mobile telephone), using MT systems. Many are free; some charge according to length and/or subject of texts and/or for human post-editing.

- 4) *Languages*: listed as language pairs, i.e. A→B means a system for translating from language A into language B, and A↔B means a bi-directional system for translating both from A into B and from B into A. In the case of electronic dictionaries and translation support tools covering a number of languages in any combination, the languages are simply listed alphabetically: A, B, C,... etc.
- 5) *Subject coverage*: included if producer specifies a limitation to, or optimal performance with, particular subject fields. The absence of any indication normally implies that the producer intends the system to be general-purpose.
- 6) *Requirements*: covering computer types (e.g. PC or Macintosh, and minimum CPU), compatible operating system(s) (e.g. Windows98, WindowsNT, WindowsXP), minimum memory (RAM) and hard disk (HD) space, other hardware required (e.g. CD-Rom drive)
- 7) *Dictionaries*: size of the main (or basic) dictionary; any subject dictionaries available (number, coverage, size); user dictionary (and any limitations)
- 8) *Input*: file formats and software (e.g. word-processors) stated by producers as compatible with or acceptable as input to the system
- 9) *Translation speed*: as claimed by the producer
- 10) *Features*: any distinctive features not evident from the other details given
- 11) *Notes*: for previous names, cross-references to other products (in italic), etc.
- 12) *Distributor*: where there is uncertainty about the manufacturer (name, address, etc.), the name of a distributor is given. Note that in some cases the named distributor is the source of information about the product. Details for distributors are given in the alphabetical list of companies.
- 13) *Access*: address of website for using a service on-line or for downloading software. (Web addresses for companies are given in the Company list.)
- 14) *Price*: current retail price (if known) for one language pair or one bi-directional system; and prices of any separately sold dictionaries. Prices are given, whenever possible and if available, in dollars (\$), yen (¥), or Euro (€), otherwise in local currencies as appropriate.
- 15) *Source*: Location on Internet of further information about products

*Companies* are listed alphabetically. The list includes producers, vendors, distributors, and providers of MT services. For each company entry, the details include mail address (headquarters whenever possible), main telephone and fax numbers, an email address for information or sales, and the home webpage. In some cases, details of major branch offices are also given.

The index of *Language pairs (MT systems)* refers to names in the main (Products) sequence. Bi-directional pairs (appearing in the main list as A↔B) are included twice in the index, as A→B and as B→A. There is also an index of *Languages in electronic dictionaries and multiple source and target systems*, i.e. offering translation from any one language to any other.

The index of *Translation support tools* refers to names of systems in the Products sequence under the categories listed in (3) above.

# Products

## **Across**

Version 3.1

Company: Nero AG

Category: Translator workstation, translation memory system, terminology management

Languages: all supported by the operating system

Input: Word, RTF, TXT, PowerPoint, Excel, HTML, XML, Windows Resource

Price: Personal Edition: €399.00, Team Edition (server licence plus 5 client licences): €1,490.00;

Network Edition (server licence with MS SQL MSDE plus 8 client licences) from €3,990.00;

Enterprise Edition: €37,000.00

Source: <http://www.across.net/en/index.html>

**Active Translator** see *FB-Active Translator*

## **Ajeeb**

Company: Sakhr Software

Category: MT service (Internet)

Languages: Arabic↔English

Input: texts, webpages, news texts on Web

Access: <http://english.ajeep.com>, or <http://tarjim.ajeep.com/ajeep>

Price: free (after registration)

## **Alamax Translator**

Version 3.0

Company: not known

Category: MT system

Languages: German↔Polish

Requirements: Pentium, Windows 98/ME/NT 4.0/2000/XP, 64MB RAM, 100 MB HD space

Dictionaries: 520,000 entries

Input: text, web pages

Distributor: <http://www.abitz.com/uebersetz/deutschpolnisch.php3>

Price: €199.00, €249.00 (Business edition)

## **Al-Misbar**

Company: ATA Software Technology Ltd.

Category: MT service (Internet)

Languages: English→Arabic

Input: text, webpages

Price: free

Source: [http://www.almisbar.com/salam\\_trans.html](http://www.almisbar.com/salam_trans.html)

## **Al Mutarjim Al Arabey.**

Version: 3.0

Company: ATA Software Technology Ltd

Category: MT system (professional)

Languages: Arabic↔English

Requirements: Pentium 166MHz; Arabic-enabled Windows 98/2000/NT/ME/XP; 32MB (64MB recom.) RAM, 50MB HD space; CD-Rom drive; Internet Explorer 4.0 or later

Dictionaries: basic (2 million entries), 46 special (medicine, veterinary, biology, physics,

mathematics, chemistry, engineering, geology); user dictionary  
Features: spoken English output, OCR (for English)  
Price: €250  
Source: <http://www.atasoft.com/almutarjim/main.htm>; <http://www.englishtoarabic.com/>

**Al-Nakil** see *An-Nakel El-Arabi*

**Al-Wafi Translator** Version: 4.0  
Company: ATA Software Technology Ltd.  
Category: MT system (home use)  
Languages: Arabic↔English  
Requirements: Pentium 166MHz; Arabic Windows98/2000/ME/NT/XP; 32MB RAM, 30MB HD space; CD-Rom drive; Internet Explorer 4.0 or later  
Dictionaries: basic (1,500,000 words); user dictionary  
Features: optional spoken English output  
Price: €50  
Source: <http://www.atasoft.com/newalwafi/main.htm>; <http://www.englishtoarabic.com/>

**Al-Wafi Quick Dictionary** Version: 2.0  
Company: ATA Software Technology Ltd.  
Category: Electronic dictionary  
Languages: Arabic↔English  
Requirements: Pentium 166MHz; Windows98/2000/ME/NT/XP; 32MB RAM, 30MB HD space; CD-Rom drive; Internet Explorer 4.0 or later  
Dictionaries: 500,000 words  
Input: Word  
Feature: spoken English output  
Price: €25  
Source: <http://www.atasoft.com/quickalwafi/main.htm>; <http://www.englishtoarabic.com/>

**Amaro's Lab**  
Category: MT service  
Languages: English↔Papiamentu  
Input: text  
Access: <http://www.donamaro.nl/papiamentu>  
Price: free

**Ambassador** see *GlobalSight Ambassador*

**Amikai APIs**  
Company: Amikai Inc.  
Category: MT system (client-server)  
Languages: Chinese↔English, English↔French, English↔German, English↔Italian, English↔Japanese, English↔Portuguese, English↔Spanish, French↔German, French↔Italian, German↔Italian, Italian↔Spanish, Japanese↔Korean  
Note: allows software developers to incorporate translation directly into network applications  
Price: contact company  
Source: <http://www.amikai.com/products/apis/>

### **Amikai Enterprise**

Company: Amikai Inc.

Category: MT system (Internet)

Languages: Chinese↔Japanese, English↔French, English↔German, English↔Italian,

English↔Japanese, English↔Portuguese, English↔Spanish, Japanese↔Korean

Requirements: Windows98/ME/NT4.0/2000/XP (English or Japanese); 64MB RAM, 20MB HD space; Internet Explorer 5.0, Netscape 6.0

Input: Microsoft Office97/2000/XP; Adobe Acrobat

Price: licences from ¥15,000 per month

Source: <http://www.amikai.com/products/enterprise/>

### **An-Nakel El-Arabi**

Company: Cimos

Category: MT system

Languages: Arabic↔English, Arabic↔French

Subject coverage: trade, commerce, banking, law, computers, petroleum and gas production

Requirements: PC 486, Pentium; Windows95/98/NT/2000; 8MB RAM (16MB recommended), 150MB HD space

Dictionaries: general words (150,000 words and phrases), idioms, specialist words; user dictionary, subject dictionaries (computer, banking, business, gas and petroleum)

Translation speed: 60,000 words/hour

Features: includes translation memory system

Price: \$590 (one direction), \$990 (bi-directional)

Source: <http://www.cimos.com/>

### **ArabTrans**

Company: ArabNet Technology

Category: MT system (home use)

Languages: English→Arabic

Dictionaries: 260,000 entries

Requirements: Windows3.1/95/98/NT4, with Arab support

Input: via keyboard or disk

Price: not known

Source: <http://www.gy.com/www/ww1/ww2/atabuot.htm>

**Araya Suite** see *Heartsome XLIFF Translation Editor*

**ASTRANSAC for Internet** see *HONYAKU Internet*

**ASTRANSAC for Windows** see *HONYAKU Professional*

### **ATLAS**

Version: 12

Company: Fujitsu Ltd.

Category: MT system (professional)

Languages: English↔Japanese

Requirements: PC; Japanese Windows98/Me/2000/XP; 32MB RAM (64MB for XP), 190MB HD space; Internet Explorer 5.01 to 6.0

Dictionaries: basic (1,110,000 words English→Japanese, 1,140,000 Japanese→English); subject (25 domains: law, medicine, business, information processing, etc. totalling 1,250,000 words)

Input: Word, Excel, Acrobat, RTF, PowerPoint, webpages, Clipboard, email

Features: Web translation, translation editor, translation memory, translation environment, server translation (in connection with *eAccela BizLingo*)

Note: limited version available for English Windows

Price: ¥88,000; (with technical dictionary) ¥128,000

Source: <http://software.fujitsu.com/jp/atlas/V12/top.html>

**ATLAS HONYAKU Personal** Version: 2006

Company: Fujitsu Ltd.

Category: MT system (home use)

Languages: English↔Japanese

Price: ¥8,800

Source: <http://software.fujitsu.com/jp/atlas/p2006/top.html>

**ATLAS Translation Server 2002** see *eAccela BizLingo*

**A-Trans KJ** Version: 2.0.0

Company: APRO Technology

Category: MT system (home use)

Languages: Korean→Japanese

Requirements: PC Pentium 500; Japanese Windows2000/XP; 16MB RAM, 25MB HD space

Dictionary: 300,000 words

Price: ¥3,875

Source: <http://www.aprotechnology.com/jp/products/ATransKJ/atranskj.html>

**ATS: Automatic Translation Server**

Company: Automatictrans S.L.

Category: MT service (Internet)

Languages: Catalan↔Spanish, Portuguese↔Spanish

Input: ASCII, ANSI, text, XML, HTML, Word (DOC), RTF

Price: free (up to 50 words), from €0.0120 per word (postedited from €0.0361 per word)

Source: <http://www.automatictrans.es>

**Automatic PlusTranslation** see *Click2Translate*

**Babelfish**

Company: Altavista

Category: MT service (Internet)

Languages: Chinese↔English, English↔French, English↔German, English↔Italian, English↔Japanese, English↔Korean, English↔Portuguese, English↔Spanish, French↔German, Russian→English

Input: webpages, text (limited to 150 words)

Note: uses *Systran* system.

Access: <http://babelfish.altavista.com>

Price: free

**Babylon-Pro** Version: 5.0

Company: Babylon Ltd.

Category: Electronic dictionary (with Internet service)

Languages: English→Chinese, Dutch↔English, English↔French, English↔German,

English↔Hebrew, English↔Italian, English→Japanese, English↔Korean, English↔Portuguese,

English↔Russian, English↔Spanish, English→Swedish  
Requirements: PC 486 or higher; Windows 95/98/2000/NT/ME/XP; 64MB RAM (128MB recommended); Internet Explorer 4.0 or later, Netscape 4 or later  
Note: provides access to dictionaries and glossaries on-line; also available as 'Corporate Edition'; spoken English output  
Price: \$49.50, free trial, licences from \$24.50 (one year), downloadable (from [www.babylon.com](http://www.babylon.com))  
Source: <http://www.babylon.com>

### **Blitz Latin**

Version: 1.64

√13/7/05

Company: Software Partners  
Category: MT system  
Languages: Latin→English  
Dictionaries: 5 million words  
Price: £24.68  
Source: [http://www.software-partners.co.uk/index.php?sitesig=SP&page=SP\\_03\\_latin\\_translation](http://www.software-partners.co.uk/index.php?sitesig=SP&page=SP_03_latin_translation)

### **Bultra**

Company: ProLangs Ltd.  
Category: MT service (Internet)  
Languages: English→Bulgarian  
Dictionaries: 807,000 (general); specialist, technical dictionaries, user dictionaries  
Note: versions for Personal, Business, and Professional  
Price: contact company  
Source: [http://www.bultra.com/index\\_e.htm](http://www.bultra.com/index_e.htm)

### **Business English**

Company: Linguattec Sprachtechnologien  
Category: Electronic dictionary  
Languages: English↔German  
Dictionaries: 100,000 entries, plus 35,000 idioms  
Database: 25,000 sentences  
Subject coverage: business  
Features: voice output; can be integrate with Word or Outlook95/97  
Note: either standalone or in conjunction with *PT2001 Office Plus*  
Price: €49  
Source: <http://www.linguattec.de/products/be/>

### **Business English Online**

Company: Linguattec Sprachtechnologien  
Category: MT service (Internet)  
Languages: English↔German  
Dictionaries: 100,000 entries, plus 35,000 idioms  
Database: 25,000 sentences  
Subject coverage: business  
Access: <http://www.linguattec.net/online/beo/>  
Price: free

### **CATALYST**

Version: 6.0

Company: Alchemy Software Development Ltd.  
Category: Localization support tool; translation memory system

Languages: all

Requirements: Pentium; Windows95/98/2000/NT 4.0/XP, Win32, RC, RESX, NET/CE, Symbion, EPOC, Java; 64MB RAM

Features: Integrated localization environment, range of experts for speed and accuracy, binary localization, translation memory

Input: Excel, HTML, XHTML, XML

Note: integration with *Trados Translator's Workbench*

Price: \$699 (translator), \$3,999 (localizer), \$6,499 (developer/pro)

Source: <http://www.alchemysoftware.ie/products/catalyst.html>

### **CATCount**

Company: Advanced International Translations

Category: Localisation support tool

Note: tool for computer-assisted translation

Price: free

Source: <http://www.translation3000.com/>

### **Çevirmen**

Company: ITC (Innovative Technology Center) Inc.

Category: MT system

Languages: English→Turkish

Dictionary: 45,000 words; user dictionary (35,000 words)

Requirements: PC Windows3.1/95/NT, 16MB RAM (32MB recommended), 30MB HD space;

Macintosh System 7.1, 16MB RAM (32MB rec.), 10MB HD space

Features: interactive translation

Price: contact company

Source: <http://www.itc.com.tr/engl/cev.html>

### **ChatSphere**

Company: AppTek Inc.

Category: MT system (for corporate email)

Languages: see *TranSphere*

Note: for translation of emails within companies

Price: contact company

Source: <http://www.apptek.com/products/pdf/chat.pdf>

### **CiyaTran**

Company: Ciyasoft Corporation

Category: MT system

Languages: English→Arabic, English→Dari, English→Farsi, English→Pashto, English→Urdu

Dictionaries: 3 million entries; 85 technical dictionaries

Requirements: 55MB RAM

Translation speed: 1200 pages/min.

Price: unknown

Source: <http://www.ciyasoft.com/machintranslation.htm>

### **Click2Translate**

Company: SDL International

Category: MT service (Internet)

Languages: Catalan↔English, Dutch↔English, English↔French, English↔German, English↔Italian, English↔Portuguese, English↔Spanish, Swedish→English

Input: text, RTF, HTML

Features: provides professional post-editing

Note: service using MT, complements *FreeTranslation*

Access: <http://www.click2translate.com/>

Price: estimates provided

### **Clickq Translation Server**

Company: ClickQ Co.Ltd.

Category: MT service

Languages: English↔Korean

Price: contact company

Access: <http://www.clickq.com/>

### **Context-Online**

Company: Smart Link Corporation

Category: Electronic dictionary (Internet)

Languages: English↔French, English↔German, English↔Italian, English↔Portuguese,

English↔Russian, English↔Serbian, English↔Spanish, French↔German, French↔Italian

Access: <http://paralink.com/context/>

### **Convey Localization Suite**

Company: Convey Software/Translations.com

Category: Localization support tool

Languages: any

Features: includes content management, project management, and localization toolkit

Price: contact company

Source: <http://www.conveysoftware.com/>; <http://www.translations.com/>

### **Crossroad**

Version 3.0

Company: NEC Corporation

Category: MT system (home use, for Web)

Languages: English↔Japanese

Requirements: PC Pentium 90 MHz or higher; Japanese Windows 95/98/NT 4.0; 32MB RAM, 180MB HD space (more for speech modules)

Dictionaries: 120,000 words (each direction); user dictionary; technical dictionaries (31 fields, totalling 600,000 entries), 20,000 sample English sentences

Input: Word 95/97/98, PowerPoint 97, RTF, HTML, Write, HLP, Excel 97, and webpages, email

Feature: includes dictionary look-up; Japanese voice input and English voice output

Price: ¥ 12,000; technical dictionaries from ¥10,000 each

Source: [http://www.sw.nec.co.jp/middle/meshplus/CROSSV3/EN/adp3\\_en.html](http://www.sw.nec.co.jp/middle/meshplus/CROSSV3/EN/adp3_en.html)

### **Crossroad for Enterprise**

Version: 2

Company: NEC Corporation

Category: MT system (client-server, Web)

Languages: Chinese↔Japanese, English↔Japanese, Japanese↔Korean

Requirements (client): PC Japanese Windows; Internet Explorer 5.01 SP2 or later

Requirements (server1): PC Pentium 2GHz or later; Miracle Linux or Red Hat

Linux; 1GB RAM (min.), 70GB (min.) HD space

Requirements (server2): PC Pentium 2GHz or later; Windows 2000 Server or Professional; 1GB RAM (min.), 70GB (min.) HD space; Microsoft Japanese Office XP; Adobe Acrobat Dictionaries: 1,000,000 words (each direction); subject dictionaries (35 fields: science, chemistry, medicine, law, business, etc.), user/group dictionary; 400,000 sample English sentences  
Input: Word, Excel, PowerPoint; Acrobat PDF; HTML; txt  
Features: Intranet use by web browser, translation memory, similar sentence retrieval  
Notes; For Japanese market only  
Price: ¥ 5,000,000  
Source: <http://www.sw.nec.co.jp/middle/crossroad-enterprise/index.html>

### **Déjà Vu**

Version: X

Company: Atril Software

Category: Translator workstation; Translation memory system

Languages: any

Requirements: Pentium III 600 MHz; Windows95/98/NT4/2000/XP; 256MB RAM

Input: Word 2.0 and higher, PowerPoint, ASCII, RTF, SGML, HTML, XML, RC, PageMaker, Interleaf, FrameMaker, JavaScript, QuarkXPress, VBScript, Adobe InDesign, Trados BIF, EBU STL, GNU GetText

Feature: includes 'autoassemble' function for building rudimentary sentence translation (example-based machine translation, supports TMX, integrates with *CATALYST*, and *Trados TM*)

Note: various editions: Editor, Standard, Professional, Workgroups

Price: € 490 (Standard), €990 (Professional), €2250 (first licence for Workgroup)

Source: <http://www.atril.com>

### **Delta Translator**

Version: 3.0

Company: Delta Translator

Category: MT system

Languages: English↔Portuguese (Brazilian), Portuguese (Brazilian)↔Spanish

Requirements: Pentium III (500MHz or higher); Windows95/98/NT/Me/2000/XP; 64MB RAM, 60MB HD space, 4x CD-Rom; Internet Explorer 4.0 or later, Netscape Navigator 4.0 or later

Input: text, webpages

Features: voice input/output (Portuguese and English)

Translation speed: 100,000 words per hour

Price: \$124.95 (English↔Portuguese), \$149.95 (Spanish↔Portuguese)

Source: <http://www.deltatranslator.com/index.html>

### **Dictionary.com Translator**

Company: Lexico Publishing Group LLC

Category: MT servive (Internet)

Languages: Chinese↔English, Dutch↔English, English↔French, English↔German, English↔Greek, English↔Italian, English↔Japanese, English↔Korean, English↔Portuguese, English↔Russian, English↔Spanish

Input: text only

Price: free

Source: <http://dictionary.reference.com/translate/text.html>

### **Domino Global Workbench**

Version: 5.0

Company: Lotus Development Corporation

Category: Localization support tool (for Web)

Requirements: PC Pentium; Windows95/98/2000/NT 4.0; 16MB RAM, 25MB HD space

Features: fully integrated with Lotus Notes and Lotus Domino applications; includes translation memory

Price: contact company

Source: <http://www-306.ibm.com/software/globalization/lotus/index.jsp>

### **Dr.Eye 2005**

Company: Inventec Corporation

Category: MT system (home use)

Languages: Chinese↔English, English↔Japanese

Requirements: PC Pentium; Chinese Windows95/98/ME/2000/Me/2003; 16MB RAM, 170MB HD space, CD-Rom drive

Dictionary: 400,000 characters

Input: text, webpages

Note: traditional Chinese; also available for PocketPC

Price: \$99

Source: <http://www.dreye.com.cn>

### **Druz'ya Goo-ru**

Company: Project MT Ltd.

Category: MT system (home)

Languages: English↔Russian, German↔Russian

Requirements: PC Pentium 166 or higher; Windows98/Me/2000/XP/NT 4.0 SP5 or higher; 32MB RAM, 55MB HD space; Internet Explorer 5.x; CD-Rom drive

Dictionaries: special (e.g. cinema, cookery, music, travel)

Note: system for children

Price: \$9
