

# Compendium of Translation Software

directory of commercial machine translation systems  
and computer-aided translation support tools

Compiled by John Hutchins

Fourteenth edition  
(January 2008)

Published on behalf of  
The International Association for Machine Translation  
by  
The European Association for Machine Translation

© John Hutchins; email: compendium ["at"] hutchinsweb [dot] me [dot] uk

## Preface

This directory is intended to provide the most comprehensive and detailed listing of all known systems of machine translation and computer-based translation support tools that are currently available for purchase from stores, by mail or via the Internet.<sup>1</sup> It should be noted that it does not include any systems still under development (or reported to be close to market), nor does it include any systems or translation tools of limited availability, such as systems developed for particular clients by software or other companies. Additions since the previous edition are highlighted in green.

New software products for automatic translation and for supporting translation work are appearing almost every week; there is constant updating for new versions of operating systems, and more and more companies are involved in the field. It is inevitable that in this fast moving field no listing of commercial products can ever be complete or absolutely up to date. In order to ensure comprehensiveness and accuracy in future editions, all users of this publication are encouraged to inform the compiler, John Hutchins (compendium [at] hutchinsweb [dot] me [dot]uk), with all relevant details, about:

- a) any systems currently on sale which are not listed
- b) any systems listed that are now no longer on sale
- c) any specifications that are inaccurate (languages, system requirements, features, prices)
- d) any additional information about any listed systems
- e) any company information that is inaccurate or absent (mail addresses, telephone/fax, email addresses, websites, agents, distributors, products)

It should be stressed that the sources of information must be reliable and authoritative, and that the information must be current.

**Disclaimer:** Inclusion of any product in the Compendium does not imply recommendation or endorsement by the compiler, by the European Association for Machine Translation, or by the International Association for Machine Translation. In particular it should be noted that system categories are not to be interpreted as indicators of translation or performance quality.

**Note:** most product and company names are trademarked and/or registered names, e.g.: Internet Explorer™, Windows®, Microsoft®; WordPerfect®, Corel®; Netscape Navigator™, Mosaic™.

---

<sup>1</sup> Earlier editions of the Compendium, which list older systems and older versions of current systems, are available as PDF files from: <http://www.hutchinsweb.me.uk/Compendium.htm>

## Arrangement of entries

The Compendium comprises a list of Products, a list of Companies, indexes of languages and an index of translation support tools.

**Products** are listed alphabetically under their retailed names, and include the following details (when known):

- 1) *Product name* and (latest) *version* number. Any doubtful elements are enclosed in brackets. (Cross-references from other, older or alternative names are provided.)
- 2) *Company*: producer, developer or vendor of the system. For details of the company see the separate list of Companies.
- 3) *Category*: the type of system. A standardized set of categories has been applied as follows (with brief definitions):

*Automatic translation systems* with various subcategories

MT system: software for automatic translation, where input units are full sentences of one natural language and the output units are corresponding full sentences of another language.

MT system (home use): an automatic translation system designed by the producer for personal use by the general public, i.e. by persons not normally with any experience or training in translation. (Caution: some of these systems are little more than dictionaries.)

MT system (for Internet/Web): system developed specifically for translating electronic documents on the Internet such as electronic mail, webpages, chat discussions, etc.

MT system (professional use): system designed for use by professional translators, usually working independently or for translation agencies

MT system (enterprise): system designed for company intranets (e.g. client-server systems) to support a team of translators (often professionally trained)

MT system (for Websites): system designed for company websites to provide online translation of webpages.

MT system (spoken language): system designed to translate speech directly (i.e. not via a text-to-text system)

*Translation support tools* of the following types:

Electronic dictionary: bilingual or multilingual database of lexical entries (words or phrases) searchable individually or in combination, either for consultation or for insertion into human-produced translations. (A dictionary might also be used to produce ‘word-for-word’ renditions, i.e. sequences of individually translated words in the syntactic order of the original texts.)

Localization support tool: system for the translation, terminological control, and publication of multilingual computer software documentation and programs

Translation memory system: software (or component of system) for the creation, maintenance and searching of bilingual databases of previously translated texts

Alignment tool: software for the creation of bilingual text databases where sentences (or phrases) of source texts are linked to corresponding text segments of a target language.

Terminology management system: software for the creation, maintenance and searching of multilingual databases of terminology compiled for local (company or personal) use.

Pre-editing tool: software for the preparation of input texts, often including means for the control of input language, i.e. the reduction of ambiguities and the simplification of structures in order to facilitate automatic translation.

Translator workstation: integrated system for the use of professional translators, which

combines (normally) multilingual word-processing, terminology management, translation memory, and (optional) automatic translation.

*Translation services*

MT portal: service on Internet providing access to a number of MT services and/or to information about MT systems.

MT service: translation service via Internet (or mobile telephone), using MT systems. Many are free; some charge according to length and/or subject of texts and/or for human post-editing.

- 4) *Languages*: listed as language pairs, i.e. A→B means a system for translating from language A into language B, and A↔B means a bi-directional system for translating both from A into B and from B into A. In the case of electronic dictionaries and translation support tools covering a number of languages in any combination, the languages are simply listed alphabetically: A, B, C,... etc.
- 5) *Subject coverage*: included if producer specifies a limitation to, or optimal performance with, particular subject fields. The absence of any indication normally implies that the producer intends the system to be general-purpose.
- 6) *Requirements*: covering computer types (e.g. PC or Macintosh, and minimum CPU), compatible operating system(s) (e.g. Windows98, WindowsNT, WindowsXP), minimum memory (RAM) and hard disk (HD) space, other hardware required (e.g. CD-Rom drive)
- 7) *Dictionaries*: size of the main (or basic) dictionary; any subject dictionaries available (number, coverage, size); user dictionary (and any limitations)
- 8) *Input*: file formats and software (e.g. word-processors) stated by producers as compatible with or acceptable as input to the system
- 9) *Translation speed*: as claimed by the producer
- 10) *Features*: any distinctive features not evident from the other details given
- 11) *Notes*: for previous names, cross-references to other products (in italic), etc.
- 12) *Distributor*: where there is uncertainty about the manufacturer (name, address, etc.), the name of a distributor is given. Note that in some cases the named distributor is the source of information about the product. Details for distributors are given in the alphabetical list of companies.
- 13) *Access*: address of website for using a service on-line or for downloading software. (Web addresses for companies are given in the Company list.)
- 14) *Price*: current retail price (if known) for one language pair or one bi-directional system; and prices of any separately sold dictionaries. Prices are given, whenever possible and if available, in dollars (\$), yen (¥), or Euro (€), otherwise in local currencies as appropriate.
- 15) *Source*: Location on Internet of further information about products

[Companies](#) are listed alphabetically. The list includes producers, vendors, distributors, and providers of MT services. For each company entry, the details include mail address (headquarters whenever possible), main telephone and fax numbers, an email address for information or sales, and the home webpage. In some cases, details of major branch offices are also given.

The index of [Language pairs \(MT systems\)](#) refers to names in the main (Products) sequence. Bi-directional pairs (appearing in the main list as A↔B) are included twice in the index, as A→B and as B→A. There is also an index of [Languages in electronic dictionaries and multiple source and target systems](#), i.e. offering translation from any one language to any other.

The index of [Translation support tools](#) refers to names of systems in the Products sequence under the categories listed in (3) above.

# Products

## **Across**

Version 3.5

Company: Nero AG

Category: Translator workstation, translation memory system, terminology management

Languages: all supported by the operating system

Input: Word, RTF, TXT, PowerPoint, Excel, HTML, XML, Windows Resource

Source: <http://www.across.net/en/index.html>

## **Action II Multilingual Machine Translation**

Company: Wisdom Computer Center

Category: MT service (Internet)

Languages: Chinese↔English, Chinese↔Japanese, Chinese↔Malay, Chinese↔Vietnamese, English↔Japanese, English↔Malay, English↔Vietnamese, Indonesian→Chinese, Indonesian→English, Japanese↔Vietnamese, Malay↔Vietnamese

Input: text

Price: free

Source: <http://wisdom.com.my>

**Active Translator** see *FB-Active Translator*

## **Ajeeb**

Company: Sakhr Software

Category: MT service (Internet)

Languages: Arabic↔English

Input: texts, webpages, news texts on Web

Access: <http://english.sakhr.com>, or <http://tarjim.ajejb.com/ajejb>

Price: free (after registration)

## **Alamax Translator**

Version 3.0

Company: not known

Category: MT system

Languages: German↔Polish

Requirements: Pentium, Windows 98/ME/NT 4.0/2000/XP, 64MB RAM, 100 MB HD space

Dictionaries: 520,000 entries

Input: text, web pages

Distributor: <http://www.abitz.com/uebersetz/deutschpolnisch.php3>

Price: €199.00, €249.00 (Business edition)

## **Al-Misbar**

Company: ATA Software Technology Ltd.

Category: MT service (Internet)

Languages: English→Arabic

Input: text, webpages

Price: free

Source: <http://www.almisbar.com/>

**Al Mutarjim Al Arabey**

Version: 3.0

Company: ATA Software Technology Ltd

Category: MT system (professional)

Languages: Arabic↔English

Requirements: Pentium 166MHz; Arabic-enabled Windows 98/2000/NT/ME/XP; 32MB (64MB recom.) RAM, 50MB HD space; CD-Rom drive; Internet Explorer 4.0 or later

Dictionaries: basic (2 million entries), 46 special (medicine, veterinary, biology, physics, mathematics, chemistry, engineering, geology); user dictionary

Features: spoken English output, OCR (for English)

Price: £200

Source: <http://www.atasoft.com/almutarjim/main.htm>**Al-Nakil** see *An-Nakel El-Arabi***Al-Wafi Translator**

Version: 4.0

Company: ATA Software Technology Ltd.

Category: MT system (home use)

Languages: Arabic↔English

Requirements: Pentium 166MHz; Arabic Windows98/2000/ME/NT/XP; 32MB RAM, 30MB HD space; CD-Rom drive; Internet Explorer 4.0 or later

Dictionaries: basic (1,500,000 words); user dictionary

Features: optional spoken English output

Price: £50

Source: <http://www.atasoft.com/almutarjim/main.htm>**Al-Wafi Quick Dictionary**

Version: 2.0

Company: ATA Software Technology Ltd.

Category: Electronic dictionary

Languages: Arabic↔English

Requirements: Pentium 166MHz; Windows98/2000/ME/NT/XP; 32MB RAM, 30MB HD space; CD-Rom drive; Internet Explorer 4.0 or later

Dictionaries: 500,000 words

Input: Word

Feature: spoken English output

Price: £25

Source: <http://www.atasoft.com/almutarjim/main.htm>**Amaro's Lab**

Category: MT service

Languages: English↔Papiamentu

Input: text

Access: <http://www.donamaro.nl/papiamentu>

Price: free

**Ambassador**

Company: Transware

Category: Localization support tool, Translation memory system

Languages: any

Price: contact company

Source: <http://www.transware.com/solutions/ambassador.html>

### **Amikai APIs**

Company: Amikai Inc.

Category: MT system (client-server)

Languages: Chinese↔English, English↔French, English↔German, English↔Italian, English↔Japanese, English↔Portuguese, English↔Spanish, French↔German, French↔Italian, German↔Italian, Italian↔Spanish, Japanese↔Korean

Note: allows software developers to incorporate translation directly into network applications

Price: contact company

Source: <http://www.amikai.com/products/apis/>

### **Amikai Enterprise**

Company: Amikai Inc.

Category: MT system (Internet)

Languages: Chinese↔Japanese, English↔French, English↔German, English↔Italian, English↔Japanese, English↔Portuguese, English↔Spanish, Japanese↔Korean

Requirements: Windows98/ME/NT4.0/2000/XP (English or Japanese); 64MB RAM, 20MB HD space; Internet Explorer 5.0, Netscape 6.0

Input: Microsoft Office97/2000/XP; Adobe Acrobat

Price: licences from ¥15,000 per month

Source: <http://www.amikai.com/products/enterprise/>

### **Amikai Portal**

Company: Amikai Inc.

Category: MT system

Languages: Chinese↔Japanese, English↔French, English↔German, English↔Italian, English↔Japanese, English↔Portuguese, English↔Spanish, Japanese↔Korean

Input: webpages (AmiWeb), real-time communication (AmiChat), email (AmiText)

Note: system for company websites

Price: licences

Source: <http://www.amikai.com/products/portal/>

### **Angusman's Translator Plugin Pro**      Version: 5.0

Company: Angusman Chakraborty (Taragana.com)

Category: MT portal (plug-in for blogs)

Languages: English→Arabic, English→Chinese, English→Dutch, English→French, English→German, English→Greek, English→Italian, English→Japanese, English→Korean, English→Portuguese, English→Russian, English→Spanish, English→Swedish

Note: available for Wordpress 2.x.y Blogs

Access: *Babelfish* and *Google*

Price: \$30

Source: <http://blog.taragana.com/index.php/archive/seo-goldmine-translator-plugin-pro-50-supports-automatic-translation-of-wordpress-blogs-in-13-1-languages/>

### **An-Nakel El-Arabi**

Company: Cimos

Category: MT system

Languages: Arabic↔English, Arabic↔French

Subject coverage: trade, commerce, banking, law, computers, petroleum and gas production

Requirements: PC 486, Pentium; Windows95/98/NT/2000; 8MB RAM (16MB recommended), 150MB HD space

Dictionaries: general words (150,000 words and phrases), idioms, specialist words; user dictionary, subject dictionaries (computer, banking, business, gas and petroleum)

Translation speed: 60,000 words/hour

Features: includes translation memory system

Price: \$590 (one direction), \$990 (bi-directional)

Source: <http://www.cimos.com/>

**Apertium** see *interNOSTRUM*, *OpenTrad*, *Traductor Universia* [see also: <http://www.apertium.org>]

### **Applied Language Solutions**

Company: Applied Language Solutions

Category: MT portal

Languages: Arabic↔English, Chinese↔English, Dutch↔English, Dutch↔French, English↔French, English↔German, English↔Italian, English↔Japanese, English↔Korean, English↔Portuguese, English↔Russian, English↔Spanish, French↔German, French↔Italian, French↔Portuguese, French↔Spanish

Input: text, email, website

Access: [http://www.appliedlanguage.com/free\\_translation.shtml](http://www.appliedlanguage.com/free_translation.shtml)

Price: free

**Araya Suite** see *Heartsome XLIFF Translation Editor*

**ASTRANSAC for Internet** see *HONYAKU Internet*

**ASTRANSAC for Windows** see *HONYAKU Professional*

### **ATA-NTS**

Company: ATA Software Technology Ltd.

Category: MT system (transliteration)

Languages: English→Arabic

Input: names

Access: <http://names.almisbar.com/>

Price: not known

Source: <http://www.atasoft.com/almutarjim/main.htm>

### **ATLAS**

Version: 14

Company: Fujitsu Ltd.

Category: MT system (professional)

Languages: English↔Japanese

Requirements: PC; Japanese Windows2000/XP/Vista; 256MB RAM, 570MB HD space; Internet Explorer 5/6/7; Outlook 2000/2002/2003; Eudora

Dictionaries: 2,600,000 words; subject (25 domains: law, medicine, business, information processing, etc.: 5.4 million words)

Input: Word, Excel, Outlook, Acrobat, RTF, PowerPoint, webpages, Clipboard, email

Features: Web translation, translation editor, translation memory, translation environment, server translation (in connection with *eAccela BizLingo*)

Price: ¥92,400 (dictionaries extra)

Source: <http://www.fujitsu.com/global/services/software/translation/atlas/>

**ATLAS Translation Server 2002** see *eAccela BizLingo*

**ATS: Automatic Translation Server**

Company: Automatictrans S.L.

Category: MT service (Internet)

Languages: Catalan↔Spanish, Portuguese↔Spanish

Input: ASCII, ANSI, text, XML, HTML, Word (DOC), RTF

Price: free (up to 50 words), from €0.0120 per word (postedited from €0.0361 per word)

Source: <http://www.automatictrans.es>

**Automatic PlusTranslation** see *Click2Translate*

**Babelfish**

Company: Altavista; Yahoo

Category: MT service (Internet)

Languages: Chinese↔English, Dutch↔English, Dutch↔French, English↔French,

English↔German, English↔Greek, English↔Italian, English↔Japanese, English↔Korean,

English↔Portuguese, English↔Russian, English↔Spanish, French↔German, French↔Greek,

French↔Portuguese, French↔Spanish

Input: webpages, text (limited to 150 words)

Note: uses *Systran* system.

Access: <http://babelfish.altavista.com>; <http://babelfish.yahoo.com>

Price: free

**Babylon-Pro**

Version: 7.0

Company: Babylon Ltd.

Category: Electronic dictionary (Internet), MT service (Internet)

Languages (dictionary): 75 languages; (text translations): Arabic, Chinese, Dutch, English, Farsi, French, German, Hebrew, Italian, Japanese, Korean, Polish, Portuguese, Russian, Spanish, Turkish, Ukrainian

Requirements: Windows2000/XP/Vista; 128MB RAM, 50MB HD space; Internet Explorer 5 or later

Note: text translations provided by *LEC Translate*

Price: from \$74 (downloadable), annual subscription \$34

Source: <http://www.babylon.com>

**Blitz Latin**

Company: Software Partners

Category: MT system

Languages: Latin→English

Dictionaries: 40,000 words

Price: £29

Source: <http://www.software-partners.co.uk>

**Bultra**

Company: ProLangs Ltd.

Category: MT service (Internet)

Languages: English→Bulgarian

Dictionaries: 807,000 (general); specialist, technical dictionaries, user dictionaries  
Note: versions for Personal, Business, and Professional  
Price: contact company  
Source: <http://www.bultra.com/>

**Carabao Language Kit** Version: 1.0.0.1  
Company: Digital Sonata  
Category: software for creating and developing MT systems  
Dictionaries: Cebuano→English (free), English→Czech (free), English→Swahili (free),  
Russian→English (\$1720)  
Price: Standard Edition (free), Pro Edition (\$176), Linguist Edition (\$820)  
Source: <http://www.digitalsonata.com/>

**CATALYST** Version: 7.0  
Company: Alchemy Software Development Ltd.  
Category: Localization support tool; translation memory system  
Languages: all  
Requirements: Pentium; Windows95/98/2000/NT 4.0/XP/Win32/Winx64/Vista,RC,RESX,NET,  
Symbian/CE/EPOC, Java; 64MB RAM  
Features: Integrated localization environment, range of experts for speed and accuracy, binary  
localization, translation memory  
Input: Excel, HTML, XHTML, XML  
Note: integration with *SDL Trados* systems  
Price: €499 (translator), €3,999 (localizer), €6,499 (developer/pro)  
Source: <http://www.alchemysoftware.ie/products/catalyst.html>

**CATCount**  
Company: Advanced International Translations  
Category: Localisation support tool  
Note: tool for computer-assisted translation  
Price: free  
Source: <http://www.translation3000.com/>

**Çevirmen**  
Company: ITC (Innovative Technology Center) Inc.  
Category: MT system  
Languages: English→Turkish  
Dictionary: 45,000 words; user dictionary (35,000 words)  
Requirements: PC Windows3.1/95/NT, 16MB RAM (32MB recommended), 30MB HD space;  
Macintosh System 7.1, 16MB RAM (32MB rec.),10MB HD space  
Features: interactive translation  
Price: contact company  
Source: <http://www.itc.com.tr/engl/cev.html>

**ChatSphere**  
Company: AppTek Inc.  
Category: MT system (for corporate email)  
Languages: see *TranSphere*  
Note: for translation of emails within companies  
Price: contact company

Source: <http://www.apptek.com/products/pdf/chat.pdf>

### **Click&Translate2**

Company: Digital Publishing, Lingenio

Category: MT system (webpages)

Languages: English↔German

Input: webpages

Price: €19.99

Source: <http://www.lingenio.de>

### **Click2Translate**

Company: SDL International

Category: MT service (Internet)

Languages: see *FreeTranslation*

Input: text, RTF, HTML

Features: provides professional post-editing

Note: service using MT, complements *FreeTranslation*

Access: <http://www.click2translate.com/>

Price: estimates provided

### **Compadre Cámara**

Company: SpeechGear

Category: MT system

Languages: not known

Input: text on images

Price: not known

Source: <http://www.speechgear.com/camara.aspx>

### **Compadre Document**

Company: SpeechGear

Category: MT system

Languages: Chinese↔English, Dutch↔English, English↔French, English↔German, English↔Italian, English↔Japanese, English↔Portuguese, English↔Spanish

Input: MS Office and PowerPoint

Price: not known

Source: <http://www.speechgear.com/document.aspx>

### **Compadre Interact**

Company: SpeechGear

Category: MT system (spoken language)

Languages: see *Compadre Document*

Source: <http://www.speechgear.com/interact.aspx>

### **Compadre Interpreter**

Company: SpeechGear

Category: Electronic dictionary (mobile)

Languages: English↔French, English↔German, English↔Italian, English↔Portuguese, English↔Spanish

Requirements: Pocket PC; Palm PDA

Features: voice input/output

Price: \$69.95; \$89.95 (with automatic speech recognition)

Source: <http://www.speechalator.com/store/>

**Compendium** see *Lucy Translator*

### **Context-Online**

Company: Smart Link Corporation

Category: Electronic dictionary (Internet)

Languages: English↔French, English↔German, English↔Italian, English↔Portuguese, English↔Russian, English↔Serbian, English↔Spanish, French↔German, French↔Italian

Access: <http://paralink.com/context/>

### **Converser for Healthcare**

Company: Spoken Translation Inc.

Category: MT system (spoken language)

Languages: English↔Spanish

Subject: healthcare conversations

Requirements: Windows XP Professional; 512MB RAM (1GB recommended), 530MB HD space;

Dragon Naturally Speaking

Price: contact company

Source: <http://www.spokentranslation.com>

### **Convey Localization Suite**

Company: Convey Software/Translations.com

Category: Localization support tool

Languages: any

Features: includes content management, project management, and localization toolkit

Price: contact company

Source: <http://www.conveysoftware.com/>

### **Crossroad**

Version: 4.0

Company: NEC Corporation

Category: MT system (home use, for Web)

Languages: English↔Japanese

Requirements: PC Pentium 1GHz or higher; Japanese Windows ME/2000/XP/Vista; 512MB RAM, 1GB HD space (more for speech modules)

Dictionaries: 120,000 words (each direction); user dictionary; technical dictionaries (31 fields, totalling 600,000 entries), 20,000 sample English sentences

Input: xt, DOC, PPT, RTF, HTML, Excel, webpages, email

Feature: includes dictionary look-up; Japanese voice input and English voice output

Price: ¥ 4,500

Source: [http://www.nec.co.jp/middle/meshplus/cross\\_v4/top.html](http://www.nec.co.jp/middle/meshplus/cross_v4/top.html)

### **Crossroad for Enterprise**

Version: 2

Company: NEC Corporation

Category: MT system (client-server, Web)

Languages: Chinese↔Japanese, English↔Japanese, Japanese↔Korean

Requirements (client): PC Japanese Windows; Internet Explorer 5.01 SP2 or later

Requirements (server1): PC Pentium 2GHz or later; Miracle Linux or Red Hat

Linux; 1GB RAM (min.), 70GB (min.) HD space

Requirements (server2): PC Pentium 2GHz or later; Windows 2000 Server or Professional; 1GB RAM (min.), 70GB (min.) HD space; Microsoft Japanese Office XP; Adobe Acrobat  
Dictionaries: 1,000,000 words (each direction); subject dictionaries (35 fields: science, chemistry, medicine, law, business, etc.), user/group dictionary; 400,000 sample English sentences  
Input: Word, Excel, PowerPoint; Acrobat PDF; HTML; txt  
Features: Intranet use by web browser, translation memory, similar sentence retrieval  
Notes; For Japanese market only  
Price: ¥ 1,500,000  
Source: <http://www.sw.nec.co.jp/middle/crossroad-enterprise/index.html>

### **Déjà Vu**

Version: X

Company: Atril Software

Category: Translator workstation; Translation memory system

Languages: any

Requirements: Pentium III 600 MHz; Windows98/ME/NT4/2000/XP/Vista; 256MB RAM

Input: Word 2.0 and higher, PowerPoint, ASCII, RTF, SGML, HTML, XML, RC, PageMaker, Interleaf, FrameMaker, JavaScript, QuarkXPress, VBScript, Adobe InDesign, BIF, EBU STL, GNU GetText

Feature: includes example-based machine translation techniques, supports TMX, integrates with *CATALYST*, and *SDL Trados TM*

Note: various editions: Editor, Standard, Professional, Workgroup

Price: € 490 (Standard), €990 (Professional), €2250 (first licence for Workgroup)

Source: <http://www.atril.com>

### **Delta Translator**

Version: 3.0

Company: Delta Translator

Category: MT system

Languages: English↔Portuguese (Brazilian), Portuguese (Brazilian)↔Spanish

Requirements: Pentium III (500MHz or higher); Windows95/98/NT/Me/2000/XP; 64MB RAM, 60MB HD space, 4x CD-Rom; Internet Explorer 4.0 or later, Netscape Navigator 4.0 or later

Input: text, webpages

Features: voice input/output (Portuguese and English)

Translation speed: 100,000 words per hour

Note: Portuguese↔Spanish is version 2.0

Price: \$134.95 (English↔Portuguese), \$149.95 (Spanish↔Portuguese)

Source: <http://www.deltatranslator.com/index.html>

### **Dictionary.com Translator**

Company: Lexico Publishing Group LLC

Category: MT servive (Internet)

Languages: Chinese↔English, Dutch↔English, English↔French, English↔German, English↔Greek, English↔Italian, English↔Japanese, English↔Korean, English↔Portuguese, English↔Russian, English↔Spanish

Input: text only

Price: free

Source: <http://dictionary.reference.com/translate/>

### **Domino Global Workbench**

Version: 5.0

Company: Lotus Development Corporation

Category: Localization support tool (for Web)

Requirements: PC Pentium; Windows95/98/2000/NT 4.0; 16MB RAM, 25MB HD space  
Features: fully integrated with Lotus Notes and Lotus Domino applications; includes translation memory  
Price: contact company  
Source: <http://www-306.ibm.com/software/globalization/lotus/index.jsp>

### **DoujiTsuyaku**

Company: Crosslanguage, Inc.

Languages: French→Japanese, German→Japanese, Italian→Japanese, Portuguese→Japanese, Spanish→Japanese

Requirements: Windows2000/XP; 128MB RAM, 400MB HD space; Internet Explorer 6

Price: ¥7,800

Source: <http://www.crosslanguage.co.jp/products/hworld/en/>

### **Dr.Eye**

Version: 8.0

Company: Inventec Corporation

Category: MT system (home use)

Languages: Chinese↔English, English↔Japanese

Requirements: PC Pentium III 500; Chinese Windows98/ME/2000/Me/2003/Vista; 128MB RAM, 680MB HD space, CD-Rom drive

Dictionary: 400,000 characters

Input: text (doc, htm, xls, ppt), webpages

Note: traditional Chinese; also available for PocketPC

Price: unknown

Source: <http://www.dreye.com.cn> ; <http://www.dreye.com/tw/index.php>

### **Druz'ya Goo-ru**

Company: Project MT Ltd.

Category: MT system (home)

Languages: English↔Russian, German↔Russian

Requirements: PC Pentium 166 or higher; Windows98/Me/2000/XP/NT 4.0 SP5 or higher; 32MB RAM, 55MB HD space; Internet Explorer 5.x; CD-Rom drive

Dictionaries: special (e.g. cinema, cookery, music, travel)

Note: system for children

Price: \$9

Source: <http://goo-ru.promt.ru/>

### **eAccela BizLingo**

Version: 3

Company: Accela Technology Corporation

Category: MT system (client-server, Web)

Languages: English↔Japanese
